

Fido's Funhouse

An exciting new program for Providers of Vacation and Out of School Hours Care

Bookings are now being taken for the 2009 school year

At Competent K9 we believe that the education of children is the key to changing thought patterns. Our fun, innovative and educational programs have been designed to promote the humane treatment of animals and to develop responsible Pet Owners.

Program participants learn about dogs and the important role they play in our lives. The children are given the opportunity to develop a greater understanding of the need to respect all living creatures – both human and non-human varieties. There are special guests (both human and animal!) as well as a range of fun activities including crafts, games, and talks involving a variety of animal-related subjects.

Key themes of all our programs:

Dog safety; Compassion; Responsibility;
Humane Treatment; Care for life;
Training

Type of Programs:

Day Camps, Weekend Workshops, After school Care Programs

Participants:

Coeducational, Grades K-6.

Staffing:

Our staff are experienced in working with children and animals and hold qualifications in teaching, children services, recreation, canine behaviour and first aid. As part of the screening process, staff are required to undergo police checks and working with children checks. All dogs involved in our programs have passed rigorous temperament tests and are handled only by experienced Dog Behavioural Trainers.

**Fun
